A notice urging Burmese Comrades to act

To our Burmese Comrades, the master race of Burma.....

- ❖ As we love our Burman people with all our heart and soul, we must help the mother land by defending our Burman race. All of us shall do this by helping with every aspect of our economy, social affairs, education, and literature, fine arts and culture as well.
- ❖ Therefore, we the Burman comrades shall assault other ethnic groups of Burma by using all possible means; both economic and social, and to influence them to become a part of Burman society by using money, materials, and persuade them to hold our literature, fine arts and culture in high esteem.
- ❖ For the benefit of the Burman race, we the Burman comrades shall try hard to indoctrinate Burma with our education, social affairs, fine arts, literature and culture, so that this will legitimize our offensive to achieve total domination throughout Burma.
- ❖ The everlasting dominance of our Burman race is the main objective. The Burman race must also succeed and develop. The easiest way to accomplish these objectives is to use the following methods;
 1. To subjugate non Burman women by means of interracial breeding.
 2. If we the Burman comrades fail to obtain and secure employment in Burma proper, we shall seek employment in ethnic regions, and when the opportunity arises we must endeavour to attract ethnic women into Burman society.
 3. Typically, ethnic women lack moral principles, and tend to like and envy Burman men. In order to attract ethnic women into Burman society we should exploit these characteristics.
 4. Dear comrades, at this present time, if we are unable to carryout the above, ethnic people will become a poisonous substance that will harm the Burman race. Thus, we the Burman must be united as one. We must entrench ourselves as firmly as we can in every corner. In case we have to leave the ethnic regions permanently one day, we shall leave our bloodline established.
 5. Ultimately non Burman women shall effectively become prostitutes if offered money in an affectionate manner by Burman men.
 6. Oh my dear comrades.....There is no time greater than the present to proceed with the above, we shall therefore work to subjugate non Burman women by offering financial disbursement to encourage sexual relationships.
 7. Burman comrades who have accomplished the above goals shall receive a monthly goodwill gift provided by the State as follows:
 - (a) Ordinary woman/commoner - 500 kyats

- (b) Daughter or niece of a prominent person in their community - 1000 kyats
- (c) Female graduate - 1500 kyats
- (d) Educated descendant of a Shan Chief
Daughter or niece of a wealthy educated person - 2700 Kyats

We the great noble lineages of the Burman comrades shall continue to observe and practice Human on Human conquest. The long term success of our Burman comrades to exist in perpetuity is dependent on our subjugation over non-Burman ethnics.

Burmese comrades shall never worry about financial issues. For the Government has set aside the equivalent of 5 million GBP per year as a special reserve fund.

When achieving one of the above goals, comrades should contact the person who provided this brochure in order to receive their monthly goodwill gift. High ranking officers take this very seriously and are earnestly waiting to provide special care for those comrades.

This secret instruction brochure shall only be distributed or circulated to Burman people and comrades, who can promise to keep the matter confidential.

This brochure is the fourth edition encouraging all members of the Burman master race who love and revere the race, language and religion.
